ABOUT ME

Engineering student specializing in Electronics and Computer Science with hands-on experience in embedded systems, web development, and computer vision projects. Skilled in problem-solving and building practical solutions using tools like Arduino and OpenCV. Strong communication abilities developed through teaching and event anchoring. Seeking an internship to apply technical skills and gain industry experience.

EDUCATION

ROYAL JUNIOR COLLEGE OF SCIENCE AND COMMERCE - 2023 - 2025

PCM with Computer Science

SHAH & ANCHOR KUTCHHI ENGINEERING COLLEGE - 2025 - 2029

Bachelors of Technology in Electronics and Computer Science.

WORK & PROJECTS

Abacus Teacher **Jun 2025 - Aug 2025**

Smart Kids Abacus Institute, Dombivli.

- Designed engaging lessons to improve math and critical thinking skills
- Tailored teaching methods for diverse learning needs
- Coordinated with parents to track student progress

Event Anchor **May 2023 - Mar 2024**

Jhaveri Spices Pvt. Ltd., Goregaon

- Hosted and managed events aligned with marketing goals
- Engaged audience to enhance brand awareness and participation
- Coordinated with teams to ensure smooth event execution

Project

1. **Air Canvas (Computer Vision)**
Developed a virtual drawing system using Python and OpenCV with real-time hand tracking.

2. **Billing Software**
Invoice generation and transaction management system.

3. **Pomodoro Timer - Studybuddy(Web)**
A clean focus app that helps you study smarter with timed sessions, tasks, and simple controls.

4. **Hospital Queue Management System**
A simple web-based system that manages hospital queues, allowing patients to book appointments, view waiting status, and cancel tokens efficiently.

5. **Solar Powered Automatic Light System**
Built an energy-efficient lighting system using solar panels and sensors.
